The story of the company that was founded by the inventor of the snowmobile In 1942, Joseph-Armand Bombardier invented the snowmobile and founded his company to manufacture them. From its humble beginnings as an entrepreneurial company in rural Quebec, led by an enterprising inventor, Bombardier Inc. has emerged as a global leader in the transportation industry. This book tells the fascinating tale of this remarkably well managed company that has enjoyed spectacular growth in its chosen markets through strong leadership and management strategy, succession planning, strategic diversification, and turnaround and acquisition artistry. The fascinating story of the world's largest rail manufacturer for both railway and subway Reveals why Bombardier Inc. is a multi-faceted global company yet nobody knows their name Written by Larry MacDonald the author of Nortel Network The Bombardier Story shows how invention and entrepreneurship, management and leadership, smooth succession planning, and turnaround and acquisition built this global powerhouse.

This book provides a comprehensive, state-of-the art review of HBV infection and liver disease. It discusses new data on basic and translational medicine, including the viral life cycle, the immunopathogenesis of virus-induced chronic hepatitis, viral and host genetic factors affecting disease progression, and the mechanism of virus-induced hepatocarcinogenesis, as well as their potential applications in daily clinical practice. The clinical aspects of chronic HBV infection are examined in chapters on the global epidemiology, efficacy of HBV vaccination, natural history, co-infections with HCV, HDV or HIV, and management of special populations including children, pregnant women and patients undergoing immunosuppressive therapy. Further, it describes the advances and perspectives in the development of novel antiviral treatments as possible cures for HBV infection. The book is a valuable resource for medical students, physicians, and researchers who are interested in management of patients with chronic HBV infection and investigation of HBV infection.
