The 6th edition Guides now follow the International Classification of Functioning, Disability and Health (ICF) as developed by the World Health Organization (WHO). Diagnoses for the upper extremity are now defined in three major categories: soft tissue, muscle-tendon, and ligament-bone-joint . There are now five defined impairment classes, ranging from class 0 (no objective findings and thus no impairment), to class 4 (very severe problem with an upper extremity impairment range ...
