relative obscurity to a cultural mainstay whose music has spread to all parts of the population, inspired a wealth of scholarship, captivated listeners, and inspired musicians.

(Piano Method). The great Baroque master composer Johann Sebastian Bach (1685–1750) wrote music for every combination of instruments and voices. His simplest and purest work are four-part chorale compositions and settings, so perfectly constructed that they evoke meditative spirituality. "Figured bass" was a Baroque system of notating harmony. In addition 371 chorales, this collection includes 69 melodies with figured bass. This classic Schirmer edition, edited by Albert Riemenschneider, has sold over 1,000,000 copies since its release in the early 20th century. Primarily for keyboard, the chorales can also be played by other instruments.

This book presents a coherent state-of-the-art survey on the area of systematic and cognitive musicology which has enjoyed dynamic growth now for many years. It is devoted to exploring the relationships between acoustics, human information processing, and culture as well as to methodological issues raised by the widespread use of computers as a powerful tool for theory construction, theory testing, and the manipulation of musical information or any kind of data manipulation related to music.

Written by a pupil of Heinrich Schenker, this outstanding work develops and extends Schenker's approach. More than 500 examples of music from the Middle Ages to the 20th century complement the detailed discussions and analyses.

The annual conference on Neural Information Processing Systems (NIPS) is the flagship conference on neural computation. These proceedings contain all of the papers that were presented.

Total 371, Nos. 199–371 in this volume. Volume 2 of Bach's historic settings of the chorales. C. P. E. Bach said of these chorales: "Those connoisseurs of the art of harmonizing and composing settings will likewise not withhold their praise when they observe with appropriate attentiveness the very unusual manner my father uses to set up harmony in these settings, the natural flow of the inner voices as well as the bass, factors which set these chorale settings apart from any others." The comb binding creates a lay-flat book that is perfect for study and performance.

This book constitutes the refereed proceedings of the 4th International Conference on Data Mining and Big Data, DMBD 2019, held in Chiang Mai, Thailand, in July 2019. The 26 full papers and 8 short papers presented in this volume were carefully reviewed and selected from 79 submissions. They are organized in

topical sections named: data analysis; prediction; clustering; classification; mining pattern; mining tasks.

Following methods known to have been adopted by Bach himself, the exercises provided in chorale harmonization are graded in such a way as to encourage the student to develop both technique and imagination within a closely-defined framework. The instrumental counterpoint section is based on Bach's two-and three-part Inventions. By close analysis the author helps the reader to recognize the procedures Bach adopted in various musical situations. The exercises are taken largely from Bach's keyboard works.
