As the first of the nation's 78 million baby boomers begin reaching age 65 in 2011, they will face a health care workforce that is too small and woefully unprepared to meet their specific health needs.

Retooling for an Aging America calls

for bold initiatives
starting
immediately to
train all health care
providers in the
basics of geriatric
care and to
prepare family
members and
other informal
caregivers, who
currently receive
little or no training
