The Caribbean ranks among the earliest and most completely globalized regions in the world. From the first moment Europeans set foot on the islands to the present, products, people, and ideas have made their way back and forth between the region and other parts of the globe with unequal but inexorable force. An inventory of some of these unprecedented multidirectional exchanges, this volume provides a measure of, as well as a model for, new scholarship on globalization in the region. Ten essays by leading scholars in the field of Caribbean studies identify and illuminate important social and cultural aspects of the region as it seeks to maintain its own identity against the unrelenting pressures of globalization. These essays examine cultural phenomena in their creolized forms--from sports and religion to music and drink--as well as the

Caribbean manifestations of more universal trends--from racial inequality and feminist activism to indebtedness and economic uncertainty. Throughout, the volume points to the contending forces of homogeneity and differentiation that define globalization and highlights the growing agency of the Caribbean peoples in the modern world. Contributors: Antonio Benitez-Rojo (1931-2004) Alex Dupuy, Wesleyan University Juan Flores, City University of New York Graduate Center Jorge L. Giovannetti, University of Puerto Rico Aline Helg, University of Geneva Franklin W. Knight, The Johns Hopkins University Anthony P. Maingot, Florida International University Teresita Martinez-Vergne, Macalester College Helen McBain, Economic Commission for Latin America & the Caribbean, Trinidad Frances Negrón-Muntaner, Columbia University Valentina Peguero, University of Wisconsin-Stevens Point Raquel Romberg, Temple University

An assessment of human thought and behavior explores conundrums from the mind's ability to perceive three dimensions to the nature of consciousness, in an account that draws on beliefs in cognitive science and evolutionary biology.

Myths of Power - Anniversary Edition sets out to interpret the fiction of the Brontë sisters in light of a Marxist analysis of the historical conditions in which it was produced. Its aim is not merely to relate literary facts, but by a close critical examination of the novels, to find in them a significant structure of ideas and values which related to the Brontës' ambiguous situation within the class-system of their society. Its intention is to forge close relations between the novels,

nineteenth-century ideology, and historical forces, in order to illuminate the novels themselves in a radically new perspective. When originally published in 1975 (second edition in 1988), it was the first full-length Marxist study of the Brontës and is now reissued to celebrate 30 years since its first publication. It includes a new Introduction by Terry Eagleton which reflects on the changes which have happened in Marxist literary criticism since 1988, and situates this reissue of the second edition in current debates.

“ What the future fortunes of [Gramsci ’ s] writings will be, we cannot know. However, his permanence is already sufficiently sure, and justifies the historical study of his international reception. The present collection of studies is an indispensable foundation for this. ” —Eric Hobsbawm, from the preface Antonio Gramsci is a giant of Marxian thought and one of the world's greatest cultural critics. Antonio A. Santucci is perhaps the world's preeminent Gramsci scholar. Monthly Review Press is proud to publish, for the first time in English, Santucci ’ s masterful intellectual biography of the great Sardinian scholar and revolutionary. Gramscian terms such as “ civil society ” and “ hegemony ” are much used in everyday political discourse. Santucci warns us, however, that these words have been appropriated by both radicals and conservatives for contemporary and often self-serving ends that often have nothing to do with Gramsci ’ s purposes in developing them. Rather what we must do, and what Santucci illustrates time and again in his dissection of Gramsci ’ s writings, is absorb Gramsci ’ s methods. These can be summed up as the suspicion of “ grand explanatory schemes, ” the unity of theory and practice, and a focus on the details of everyday life. With respect to the last of these,

Joseph Buttigieg says in his Nota: “ Gramsci did not set out to explain historical reality armed with some full-fledged concept, such as hegemony; rather, he examined the minutiae of concrete social, economic, cultural, and political relations as they are lived in by individuals in their specific historical circumstances and, gradually, he acquired an increasingly complex understanding of how hegemony operates in many diverse ways and under many aspects within the capillaries of society. ” The rigor of Santucci ’ s examination of Gramsci ’ s life and work matches that of the seminal thought of the master himself. Readers will be enlightened and inspired by every page.

This momentous study of Benjamin's critical practice marks a sea change in Eagleton's thought. As the subtitle suggests, its goal is not merely to contemplate Benjamin's approach to language, history, and art but to chart a dynamic new course for contemporary socialist criticism. To do this, Eagleton brushes Benjamin's Trauerspiel against seventeenth-century British literature, tests his concept of the "aura" against Freud and Lacan, and undertakes his most sustained engagement with Derrida and the political crossroads of deconstruction.

This book is one of the five basic books that make up the Codification of Spiritism by Allan Kardec

Using the theatre as a central metaphor, this text provides a flexible framework to explore the psychic realities of the characters within us. Case studies underscore how different
