This is a new sixteenth edition of the Directory of EU Information Sources. It brings together a broad range of information sources, comprising not only the various constituent institutions of the European Union, their personnel, publications, information websites and representations in Europe and the rest of the world, but also diplomatic representation in Brussels, European-level trade and professional associations and NGOs, consultants and lawyers specializing in EU affairs, Press Agencies, EU grants and loans programmes, and universities offering courses in European integration. This is the most comprehensive compilation of contacts and published information on the European Union, providing access to over 12,500 information sources.

The specially commissioned papers in this book lay a solid theoretical foundation for comparative legal history as a distinct academic discipline. While facilitating a much needed dialogue between comparatists and legal historians, this research handbook examines methodologies in this emerging field and reconsiders legal concepts and institutions like custom, civil procedure, and codification from a comparative legal history perspective.
