BICC Cables can provide the customer with this type of cables that: Are manufactured to BS 6724. Have minimum limited oxygen index (LOI) is 32 % for bedding and over sheath (measured as per BS 2782 / ISO 4589 - A-IV). Have low HCL emission. Have acidic gas evolution of less than 0.5 % (to BS 2782). Comply to IEC 60332 -3 (Cable construction and design should be agreed by BICC Cables).

1.0 BICC Cables Background

It includes information on materials, design principles, installation, operating experience and standards, and several appendices contain extensive data tables on commonly used cable types and their properties. Electric Cables Handbook is an extensive source of up-to-date and essential information for electrical engineers, contractors, supply authorities and cable manufacturers.

Electric Cables Handbook: Amazon.co.uk: BICC Cables Ltd ...

Site History: The BICC facility, in operation since 1886, manufactured high voltage cables until 1996. The property was expanded into the Hudson River using fill material from 1940 to 1976. The Electric Research Power Institute (EPRI) Building, a 29,700 square feet building was constructed on the fill material and is the only remaining structure.
