The Wright Flyer, which made its first flight in 1903, was the first crewed, powered, heavier-than-air and (to some degree) controlled flying machine. It was hard to imagine back then that a few...

The First Airplane: Wright Flyer | Space

In 1911, the Wrights' Vin Fiz was the first airplane to cross the United States. The flight took 84 days, stopping 70 times. It crash-landed so many times that little of its original building materials were still on the plane when it arrived in California. The Vin Fiz was named after a grape soda made by the Armour Packing Company.

The Wright Brothers | The First Successful Airplane Books

While the Wright Brothers are commonly thought to have been the first to fly an airplane, some believe the honor rightly belongs to two other pioneering aviators. Read about the case for each and...

History Faceoff: Who Was First in Flight? - HISTORY

Overview of claims to the first powered airplane flight
Several aviators have been claimed as the first to fly a powered aeroplane. Much controversy has surrounded these claims. It is most widely held today that the Wright Brothers were the first to fly successfully. Brazil regards Alberto Santos-Dumont as the first successful aviator because the Wright Flyer took off from a rail and, after 1903, used a
