## ns of Algorithms - Richard E ...

Algorithms (4th  
Edition) by Sedgewick

My favorite is  
Neapolitan's, because  
1. It covers both  
design paradigms and  
complexity analysis.  
Kleinberg's focus on  
design paradigm, and  
Sedgewick's focus on  
complexity analysis of  
already existing

Neapolitan is somewhere between those two. 2. I like the author's presentation style.
