Health, Healing and Religion — Department of Religious Studies

Faith healers believe that their healing power comes from God through ecstatic states and trance-contact with a Christian Holy Spirit and/or ancestral spirit [7]. The increasing utilization of faith healing services could partly be attributed to the rising awareness in its complete healing process.

Religion and Health: exploration of attitudes and health ...

- While mental and physical health are intricately intertwined, the physical manifestations of spirituality and religious beliefs are indirect. What this means is that our belief system drives the...

Science Says: Religion Is Good For Your Health

A religious community can provide support especially through a stressful life event such as the death of a loved one or illness. There is the belief that a higher power will provide healing and strength through the rough times which also can explain the lower mortality rate of religious people vs. secular people.

Religion and health - Wikipedia

Four most prominent such pathways have been proposed: health behaviors (through prescribing a certain diet and/or discouraging the abuse of alcoholic beverages, smoking, etc., religion can protect and promote a healthy lifestyle), social support (people can experience social contact with co-religionists and have a web of social relations that can help and protect whenever the case), psychological states (religious people can experience a better mental health, more positive psychological ...
