Self psychology, a modern psychoanalytic theory and its clinical applications, was conceived by Heinz Kohut in Chicago in the 1960s, 70s, and 80s, and is still developing as a contemporary form of psychoanalytic treatment. In self psychology, the effort is made to understand individuals from within their subjective experience via vicarious introspection, basing interpretations on the understanding of the self as the central agency of the human psyche. Essential to understanding self psychology a

In his foundational work *The Restoration of the Self*, noted psychoanalyst Heinz Kohut boldly challenges what he called “ the limits of classical analytic theory ” and the Freudian orthodoxy. Here Kohut proposes a “ psychology of the self ” as a theory in its own right—one that can stand beside the teachings of Freud and Jung.
