### High Output Management - Grove, Andrew S. | 8601404570025 ...

Andy's formula for high output management is: A manager's output = The output of his organization + The output of the neighboring organizations under his influence . The principle is that a manager's output should not be focused on how much work he is able to produce, it should be measured on how much output his organization (team) and any neighboring team he influences outputs.

### High output management by Andrew S. Grove. New York ...

High Output Management lives to the expectations of its title. It is a book about managing output, and it does it by giving a substantial performance basis. It does not, however, poses questions about the inputs, on how to define them, or how to address the expectations of those that need to receive the outputs.
