Abstract: In this paper, we consider the Direct Perception approach for autonomous driving. Previous efforts in this field focused more on feature extraction of the road markings and other vehicles in the scene rather than on the autonomous driving algorithm and its performance under realistic assumptions.

How to write a basic technical paper for the IEEE?

The full IEEE reference should include all the necessary information for the reader to be able to find the exact source of the information, theory or finding that contributed to the paper or essay. When referencing in IEEE style, there are different formats for each source type – for example a book should be formatted differently to a website or academic journal in the reference list.

As a strict organization that stands behind diverse standards in engineering and industrial processes, IEEE format is used for engineering journals, research papers or lectures on subject. Since most college students in the United States find it difficult to cope with IEEE style, we offer IEEE citation generator that can make even the most complex formats easier, free, and quick.
