This type was introduced in 1990 and is known now as King Air 350. Besides the changes to the fuselage the 350 was given a higher MTOW of 15,000 lb. From 1998 Beechcraft implemented the UltraQuiet active noise canceling system as standard on all King Air 350s. In 2003, the 350 avionics were upgraded.

The King Air 350 and its many variants have been marketed under a number of different names, making the lineage somewhat difficult to follow. The King Air 350, also known as the King Air B300, was initially marketed as the Super King Air 350 in 1990, when it was created as the successor to the King Air 300, but the “ Super ” designation was dropped in 1996.
