external or internal factors.

Edition

Theories of Motivation in Education |

Synonym

Motivation is important in almost every aspect of human behavior. When you make a decision, your choice is certainly influenced by your motivational state. When you study mathematics, your motivation to study mathematics clearly affects the way you learn it.

The science of motivation

In general, research suggests that the domain specificity of motivation and self-concept tends to increase with age, particularly as students accrue more educational experiences and as the curriculum begins to reflect departmentalization of academic subjects (Gottfried, et al., 2001). Some
