The NJATC is aware that any formal mathematical studies you have completed may have occurred several years ago. Therefore, it is very possible that some of your math skills may be a bit "rusty." Consequently, this course is offered both as a refresher and as an introduction to the mathematics used in electrical construction to help ensure ...

The NJATC math course, which is offered to applicants upon registration, teaches the basics of algebra but does not set a goal to help prepare you for the test. In fact, the questions you will encounter on the actual electrician math test (the algebra and functions sections) are almost nothing like the questions in the course.
