the most original and important philosopher before Socrates, was born c. 515 BCE. He changed the course of Greek cosmology and had an even more important effect upon metaphysics and epistemology. He was the first to focus attention on the central problem of Greek metaphysics — What is the nature of real being? — and he established a frame of reference within which the discussion was to be conducted.

Parmenides Of Elea | Encyclopedia.com

"The fragments of Parmenides are an important monument of Greek poetry at the end of the sixth or the beginning of the fifth century B.C. In time they cannot be far removed from Pindar's Pythian x, which was written in 498, or from his Pythians VI and XII, which

of Parmenides is a poem which has survived only in fragmentary form.

Parmenides (of The First Philosophers)

Parmenides of Elea was a Presocratic Greek philosopher. As the first philosopher to inquire into the nature of existence itself, he is incontrovertibly credited as the “Father of Metaphysics.”. As the first to employ deductive, a priori arguments to justify his claims, he competes with Aristotle for the title “Father of Logic.”.

Parmenides - AbeBooks

PARMENIDES, son of Pyres, was a citizen of Hyele, Elea, or Velia, a colony founded in Oinotria by refugees from Phokaia in 540-39 B.C.¹ Diogenes tells us that he “flourished” in Ol. LXIX. (504-500 B.C.), and this was doubtless the date given by Apollodoros.² On the other hand, Plato says that Parmenides came to Athens in his sixty-fifth year, accompanied by Zeno, and conversed with Sokrates, who was then quite young.
