One of the main causes of frustration and stunted progress on guitar is the result of impatience. What often happens is you try to play faster than what your fingers and brain are capable of at that stage, you inevitably make mistakes and, after several tries, accept the illusion that you simply can't do it, it's too hard.

Make sure that the guitar is upright while you play because tilting the guitar can hurt your wrists. When standing, make sure that you have a strap on your guitar and that the guitar is tight against your torso, with the top of the guitar over your chest. Maintain a relaxed posture as you play your guitar.

~~How to Rapidly Learn to Play the Acoustic Guitar Yourself~~

Instagram. Musician Anthony Dickens of Studio Make Believe built the Circle Guitar, an original instrument that only requires the fretting hand to do the work. The rhythm side of the instrument is completely self-playing, with buttons that generate different effects and a motor that strikes the strings. Additionally, the guitar syncs perfectly with DAW or MIDI devices and Dickens is regularly adding upgrades and updates.
