Treatment For O M

Wastewater Facilities ...

Preliminary treatment of
wastewater consists of
the following steps:

Screening;

Comminution; Grit
Removal; Flow
Equalization; Oil and
Grease Removal; Pre-
Aeration; 1. Screening.

The first unit operation generally encountered in wastewater treatment plants is screening. A screen is a device with openings, generally of uniform size, that is used to retain solids found in the influent

These steps together are
referred to as
preliminary treatment.

CHAPTER 2
PRELIMINARY
TREATMENT -
wefnet.org

Access Free Preliminary

This manual on Preliminary Treatment sets out the general principles and practices which should be followed by those involved in the treatment of wastewater.

It provides criteria and procedures for the proper management, maintenance, supervision, operation and use of the processes

Access Free Preliminary

and equipment required
in the preliminary
treatment of wastewater.

PRELIMINARY

TREATMENT

The objective of
preliminary treatment is
the removal of coarse
solids and other large
materials often found in
raw wastewater.

Removal of these
materials is necessary to

Access Free Preliminary

enhance the operation and maintenance of subsequent treatment units.

3. Wastewater treatment
Sewage treatment facilities use physical, chemical, and biological processes for water purification. The processes used in these facilities are also categorized as

Access Free Preliminary

preliminary, primary,
secondary, and tertiary.
Preliminary and primary
stages remove rags and
suspended solids.

Secondary processes
mainly remove
suspended and dissolved
organics.

wastewater treatment |

Process, History,

Importance ...

The purpose of

Access Free

Preliminary

disinfection in the treatment of waste water is to substantially reduce the number of

microorganisms in the water to be discharged back into the

environment for the later use of drinking, bathing, irrigation, etc.

The effectiveness of disinfection depends on the quality of the water being treated (e.g.,

Access Free Preliminary

cloudiness, pH, etc.), the type of disinfection being used, the disinfectant dosage (concentration and time), and other environmental variables.

Sewage treatment - Wikipedia

After the Preliminary Treatment is complete at our pump stations, the wastewater is ready for
