This collection effectively examines the strategic behaviour of key players in American politics, showing that political actors, though motivated by their own interests, are governed by the Constitution, the law, and institutional rules, as well as influenced by the strategies of others. In this sixth edition of Principles and Practice of American Politics, the articles selected reflect the changing federal-state relationship; the continuing debates over the polarization of the American ...

The eight Principles and Practices presented here are the foundation on which the Institute for Advertising Ethics (IAE) was created. They are based on the premise that all forms of communications, including advertising, should always do what is right for consumers, which in turn is right for business as well.
