Introduction to Scripting using Enterprise Architect - YouTube
Enterprise Architect's workflow scripting, in its simplest form, can be used for keeping track of workflow items such as issues or change requests as they are being processed, as well as providing a means of validating user-input. Using these scripts you can provide a team-member, assigned with the task of

Workflow Scripting in Enterprise Architect

If the LoadScripts script finds a script that already exists in Enterprise Architect it will ask to overwrite the existing scripts. In order to know in which group the script belongs it will look for a the group indicator in the script. '[group=Script Management] This will tell the script that this script should go in the group Script Management. If the script indicator is absent it will assume the group name is the name of the folder where it was found.

How to use the Enterprise Architect VBScript Library ...

Enterprise Architect 1 (EA) offers a wealth of API functions to support automated manipulation of UML models. For the beginner it is not easy to find a start. It is the intention of this book to help you getting a quick and smooth start The contents of this book is the essence of a continuous work with EA since end 2003.
