Biography. Friedrichs was born in Kiel, Schleswig-Holstein on September 28, 1901. His family soon moved to Düsseldorf, where he grew up.He attended several different universities in Germany studying the philosophical works of Heidegger and Husserl, but finally decided that mathematics was his real calling.During the 1920s, Friedrichs pursued this field in Göttingen, which had a renowned ...

Kurt Otto Friedrichs - Wikipedia

As previously reported by the author at the 47th Annual GEC in paper AA-5 (1994) voltage and current standing waves have been observed along two- and four-turn inductive coils operated at 13.56 MHz. Inductive rf power was used to generate a CHF 3 plasma at 4 mTorr. Data from voltage and current probes installed on each end of the coil were used to derive spatial variations of V and I by using ...
