Stages of faith : the psychology of human development and ...

According to Fowler, there are seven primary stages of faith (including Stage 0) in the life of the individual.

They are as follows: Stage 0 – Primal Undifferentiated Faith (Ages Birth-2):

This stage is very much like Erik Erikson ' s first stage of " trust versus mistrust. " Here, the baby acquires experiences from the outer environment that either instill in him a feeling of trust and assurance (from being comforted, living in a secure and stable environment, and a experiencing a sense ...

Conjunctive Faith: It is rare for people to reach this stage before mid-life.

This is the point when people begin to realize the limits of logic and start to accept the paradoxes in life. They begin to see life as a mystery and often return to sacred stories and symbols but this time without being stuck in a theological box. IV. Mystical-Communal
