Grammar of Minangkabau language.

Many Austronesian languages exhibit isolating word structure. This volume offers a series of investigations into these languages, which are found in an "isolating crescent" extending from Mainland Southeast Asia through the Indonesian archipelago and into western New Guinea. Some of the languages examined in this volume include Cham, Minangkabau, colloquial Malay/Indonesian and Javanese, Lio, Alorese, and Tetun Dili. The main purpose of this volume is to address the general question of how and why languages become isolating, by examination of a number of competing hypotheses. While some view morphological loss as a natural process, others argue that the development of isolating word structure is typically driven by language contact through various mechanisms such as creolization, metatypy, and Sprachbund effects. This volume should be of interest not only to Austronesianists and historians of Insular Southeast Asia, but also to grammarians, typologists, historical linguists, creolists, and specialists in language contact.

This text questions the abilities of the economists who influence political decisions on the economy. Ormerod aims to show that traditional economists view the world in a way which ensures they will never be able to understand it. He suggests that economies are not machines, but dynamic organisms.

Falling into the Lesbian World offers a compelling view of sexual and gender difference through the everyday lives of tombois and their girlfriends ("femmes") in the city of Padang, West Sumatra. While likening themselves to heterosexual couples, tombois and femmes contest and blur dominant constructions of gender and heterosexuality. Tombois are masculine females who identify as men and desire women; their girlfriends view themselves as normal women who desire men. Through rich, in-depth, and provocative stories, author Evelyn Blackwood shows how these same-sex Indonesian couples negotiate transgressive identities and desires and how their experiences speak to the struggles and desires of sexual and gender minorities everywhere. Blackwood analyzes the complex and seemingly contradictory practices of tombois and their partners, demonstrating how they make sense of Islamic, transnational, and modern state discourses in ways that seem to align with normative gender and sexual categories while at the same time subverting them. The childhood and adolescent narratives of tombois and femmes offer bold new insights into a social process that is rarely addressed in anthropological, lesbian, gay, or transgender studies. We see how tombois and femmes come to view themselves as boys and girls, respectively, through their interactions with family and community, and how as teenagers tombois learn that masculinity needs its opposite: feminine women. By contrast femmes notice shifts in their desires as they develop long-term relationships with tombois. The book reveals the complexity of tomboi masculinity, showing how tombois enact both masculine and feminine behaviors as they move between the anonymity and vulnerability of public spaces and the familiarity of family spaces. Falling into the Lesbian World demonstrates how nationally and globally circulating queer discourses are received and reinterpreted by tombois and femmes in a city in Indonesia. Though less educated than many internet-savvy activists in major urban centers, their identities are clearly both part of yet different than global gay models of sexuality. In contrast to the international LGBT model of "modern" sexualities, this work reveals a multiplicity of sexual and gender subjectivities in Indonesia, arguing for the importance of recognizing and validating this diversity in the global gay ecumene.

Across scholarship on gender and sexuality, binaries like female versus male and gay versus straight have been problematized as a symbol of the stigmatization and erasure of non-normative subjects and practices. The chapters in Queer Excursions offer a series of distinct perspectives on these binaries, as well as on a number of other, less immediately apparent dichotomies that nevertheless permeate the gendered and sexual lives of speakers. Several chapters focus on the limiting or misleading qualities of binaristic analyses, while others suggest that binaries are a crucial component of social meaning within particular communities of study. Rather than simply accepting binary structures as inevitable, or discarding them from our analyses entirely based on their oppressive or reductionary qualities, this volume advocates for a re-theorization of the binary that affords more complex and contextually-grounded engagement with speakers' own orientations to dichotomous systems. It is from this perspective that contributors identify a number of diverging conceptualizations of binaries, including those that are non-mutually exclusive, those that liberate in the same moment that they constrain, those that are imposed implicitly by researchers, and those that re-contextualize familiar divisions with innovative meanings. Each chapter offers a unique perspective on locally salient linguistic practices that help constitute gender and sexuality in marginalized communities. As a collection, Queer Excursions argues that researchers must be careful to avoid the assumption that our own preconceptions about binary social structures will be shared by the communities we study.

History and development of Minangkabau literature.

The Handbook of Dialectology provides an authoritative, up-to-date and unusually broad account of the study of dialect, in one volume. Each chapter reviews essential research, and offers a critical discussion of the past, present and future development of the area. The volume is based on state-of-the-art research in dialectology around the world, providing the most current work available with an unusually broad scope of topics Provides a practical guide to the many methodological and statistical issues surrounding the collection and analysis of dialect data Offers summaries of dialect variation in the world's most widely spoken and commonly studied languages, including several non-European languages that have traditionally received less attention in general discussions of dialectology Reviews the intellectual development of the field, including its main theoretical schools of thought and research traditions, both academic and applied The editors are well known and highly respected, with a deep knowledge of this vast field of inquiry

Le 8 juin 1658, le pape Alexandre VII approuve le choix de la Propagande de nommer trois vicaires apostoliques pour les missions d'Asie et un pour le Canada : c'est une grande rupture dans l'activité missionnaire de l'Eglise soumise jusqu'à présent aux patronats portugais et espagnol ; désormais Rome montre sa volonté de reprendre en main les missions. Autour de ces vicaires va se constituer une société de prêtres séculiers qui se prépareront à la vie missionnaire dès 1664 au séminaire de la rue du Bac à Paris. Ainsi la fondation des Missions Etrangères, qui fête son 3500 anniversaire en 2008, est le fruit d'une rencontre de deux volontés : celle de représentants d'un clergé séculier désireux lui aussi de partir évangéliser les peuples au delà des mers, et celle de Rome de rétablir son autorité sur les missions. Le Dossier essaie d'analyser les caractéristiques du projet missionnaire des fondateurs de la Société des Missions Etrangères, de dresser le bilan de cette action apostolique tout au long de ces siècles sur le continent asiatique et d'en relever aujourd'hui les engagements nouveaux.
