Limbajul, ca funcție psihică specific umană, se află la confluența mai multor discipline, printre care filosofia, psihologia, neurobiologia, psihopedagogia specială, logopedia. Tulburările sale, fie că sunt de natură organică, funcțională sau psihologică, restrâng capacitatea de comunicare a individului și, implicit, viața lui socială. În cartea de față, pornind de la modelele explicative ale tulburărilor de limbaj și prezentând metode de evaluare și intervenție a căror eficacitate a fost demonstrată științific, autoarea realizează o deschidere spre tulburările emoționale, comportamentale, de învățare și nu numai, încadrându-le în contextul mai larg al mentalului uman. Propunând direcții concrete de evaluare și intervenție în cazul unor tulburări ale limbajului precum dislalia, bâlbâiala, rinolalia, dizartria, afazia, tulburările de voce, întârzierea în dezvoltarea limbajului, această carte are o importantă latură practică, îmbogățind literatura de specialitate printr-un demers inovator și binevenit.
