Evolution of the world wide web. The web has changed a lot since it was first created. The first websites were made up of simple pages of just words and pictures, a bit like online books or magazines.

What is the world wide web? - BBC Bitesize

The early web community produced some revolutionary ideas that are now spreading far beyond the technology sector: Decentralisation: No permission is needed from a central authority to post anything on the web, there is no central controlling node, and so no single point of failure ... and no “kill switch”!

History of the Web - World Wide Web Foundation

If you can connect to the Internet, but no web pages open when connected, follow the steps below. Ping an Internet address. Open the Command Prompt. At the prompt, type ping google.com and press Enter. No response from google.com. If you do not receive a response, try pinging the google.com IP address by typing the command ping 8.8.8.8 at the prompt.
