Mean Business is not your typical self-help guide to being a better executive; It's like a refresher course on the types of corporate shenanigans that were occurring in the 80s and 90s. Loved the book and would recommend it to anyone wanting to get the scoop from the perspective other than those that got down-sized.

**Clever | Saved your School**

Clever has a whiff of this. It's been expanded with lots of examples. Essentially it's telling you that your clever people might seem a bit tricky to work with, but you'd be crazy to allow them to leave because they are the ones who will come up with the fabulous ideas to keep you one step ahead, with stories about real people to make it human. According to the book's definition of clever - including strings of MBAs and PhDs and an inability to see the world from anywhere but their own point ...

I'm a mental athlete myself and am a fan of books written by memory champions. I'm sorry to say this book is just terrible. Firstly, the format. The book is published by lulu.com - which is a self-publishing house. The cover is pixelated and each page looks like it's been done on Microsoft Word. Now, let's look at the contents: -How to be clever
