segregated EPS foam products are fed to a compactor in order to reduce its volume.

## ~~Recycling of Polystyrene Wastes |~~ EcoMENA

Polystyrene packaging. Polystyrene is a type of plastic which is not commonly recycled. Most people readily recognise expanded polystyrene which is sometimes used for take-away food containers and to package white goods like microwaves. Expanded polystyrene should be placed in the waste bin. Polystyrene is also sometimes used for other food packaging like multi-pack yoghurts.

## ~~Polystyrene packaging | Recycle Now~~

Expanded Polystyrene (EPS) is great for protecting the products you need to run your business, but it can take up valuable storage and waste disposal space. It takes up valuable landfill space, too. With
