I am thinking of replacing it with a Weber 32/34 DMTL conversion but I am a little worried where I will install the manual choke cable inside the car. I am reluctant to drill the dashboard as it is in perfect condition. I assume there are members that have done this conversion but I can't find any topics. Anyone got any good ideas please? Top. Yeah, 32/34 dmtl is way too big and unsuitable for a 1litre. You probably want a single choke Weber TLA (autochoke) or TLM (manualchoke). Both very 'subtle' as used on some Polos already. Other more challenging options are 34ICH or 30DMTR or a DCD with small chokes.
