own servicing and repairs. 18 Chapters include Cooling System, Clutch, Manual Transmission, Front & Rear Suspension, Steering, Brakes, Diesel Engines, Electrical System, Wiring Diagrams etc.

First multi-year cumulation covers six years: 1965-70.

First multi-year cumulation covers six years: 1965-70.

This volume consists of collected essays, which was first read at the International Workshop on the Study of the Pentateuch with Special Emphasis on Textual Transmission History in the Hellenistic and Roman Periods held August 28-31, 2007 in Tokyo.

On April 29, 1814 Napoleon landed on the island of Elba, surrounded with a personal army of 1200 men. The allies, Russia, Prussia, England and Austria, had forced him into exile after a number of very costly defeats; he was deprived of all his titles, but could keep the title of "Emperor of Elba". History tells us that each morning he took long walks in the sun, reviewed his army each midday and discussed world matters with newly appointed advisors, following the same pattern everyday, to the great surprise of Campbell, the British officer who was to keep an eye on him. All this made everyone believe he was settled there for good. Napoleon once said: Elba is beautiful, but a bit small. Elba was definitely a source of inspiration; indeed, the early morning, March 6, 1815, Metternich, the chancellor of Austria was woken up by one of his aides with the stunning news that Napoleon had left Elba with his 1200 men and was marching to Paris with little resistance; A few days later he took up his throne again in the Tuileries. In spite of his insatiable hunger for battles and expansion, he is remembered as an important statesman. He was a pioneer in setting up much of the legal, administrative and political machinery in large parts of continental Europe. We gathered here in a lovely and quaint fishing port, Marciana Marina on the island of Elba, to celebrate one of the pioneers of integrable systems, Hirota Sensei, and this at the occasion of his seventieth birthday. Trained as a physicist in his home university Kyushu University, Professor Hirota earned his PhD in '61 at Northwestern University with Professor Siegert in the field of "Quantum Statistical mechanics". He wrote a widely appreciated Doctoral dissertation on "Functional Integral representation of the grand partition function".
